

PHASE TECH™

Introduces the NEW 530ES

Specifications

DRIVERS

Low frequency 10" cone
High frequency 1" soft dome

CROSSOVER FREQ. 2.2 kHz

FREQUENCY RANGE 40-20,000 Hz \pm 3 dB

SENSITIVITY 92 dB

RECOMMENDED

AMP POWER 10 - 100 watts

IMPEDANCE 8 ohms

DIMENSIONS 24 1/2"H x 13"W x 10 1/2"D

SHIPPING WEIGHT 33 LBS. EACH

The **530ES** employs a ten-inch woofer/midrange driver to deliver full, clean bass response and a one-inch soft-dome tweeter that is asymmetrically mounted to reduce cabinet diffraction effects and enhance midrange detail. The end result is a system that delivers accurate, realistic sound in the listener's home. The combination of exceptionally high efficiency and high power-handling capability allows the **530ES** to be used with virtually any amplifier or receiver, and it will cleanly reproduce the wide dynamic range of today's digital recordings at realistic volume levels.

To hear all the **530ES** has to offer, visit your Phase Technology dealer for a thorough audition.
