

Introduces the NEW 730ES

Specifications

DRIVERS

Low frequency	10" cone
Midrange	5 1/4" cone
High frequency	1" soft dome
CROSSOVER FREQ.	550 Hz, 3.5 kHz
FREQUENCY RANGE	36-20,000 Hz \pm 3 dB
SENSITIVITY	93 dB
RECOMMENDED AMP POWER	15 - 120 watts
IMPEDANCE	8 ohms
DIMENSIONS	37 1/4"H x 12 1/2"W x 10 5/8"D
SHIPPING WEIGHT	58 lbs. each

The Phase Technology **730ES** is a three-way, floor-standing model that achieves wide, smooth frequency response from 36 Hz to 20 kHz. The bass response, which is optimally tuned by a rear-vented enclosure, is deep, powerful and well controlled. The high-density cabinet material and internal bracing help produce exceptional clarity, and the midrange driver and patented Phase Technology soft-dome tweeter are asymmetrically mounted to reduce cabinet diffraction effects.

The end result is music that is clean and detailed with exceptional imaging and wide dynamic range. Experience the sonically exciting **730ES** at your Phase Technology dealer.
