

The Teatro Series

Bookshelf Speakers

Teatro 3.5 **NEW**

The performance leader in Phase Technology bookshelf speakers, the Teatro 3.5 will fill any room with dynamic full-range sound.

With a 6.5" woofer in a front-ported woodgrain-laminate cabinet, these speakers offer deeper bass, high efficiency and a broad dynamic range. At only 15.5" in height, the new Teatro 3.5 will be easily adaptable to bookshelf, speaker-stand or wall mounting, whatever your preference.

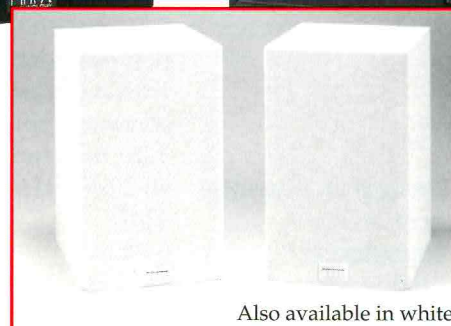

Specifications:

- Tweeter: One-inch soft dome
- Midrange/Woofer: 6.5" mineral-filled polypropylene cone with butyl rubber surround
- Frequency Response: 50-20,000 Hz
- Sensitivity: 90dB
- Impedance: 8 Ohms
- Dimensions: 15.5" H x 8" W x 8.5" D
- Shipping Weight: 26 lbs./pair

Teatro 2.5 **NEW**

For more sound in less space, the Teatro 2.5 fits the bill. Its diminutive 10.5" height enables discreet placement without sacrificing performance.

While this compact, ported cabinet is ideal for bookshelf use, its built-in keyhole mount offers a simple wall-mount option. Like its slightly larger Teatro 3.5 cousin, this model is perfect for two-channel use as well as for main- and rear-channel use in a full home-theater installation. To complement every decor, the Teatro 2.5 is offered in woodgrain-laminate black or textured white finishes.

Also available in white
